SUBJECT: FAR Class Deviation for FAR Part 11 in Support of Executive Order 14275, Restoring Common Sense to Federal Procurement

-
1. **Purpose.** This memorandum approves a class deviation to Federal Acquisition Regulation (FAR) part 11 for purposes of implementing the Federal Acquisition Regulatory Council's (the Council's) model deviation text to FAR part 18.
 2. **Background.** Executive Order (E.O.) 14275, Restoring Common Sense to Federal Procurement, signed April 15, 2025, mandates a comprehensive review and simplification of the FAR.

The FAR is being updated to:

- Eliminate non-statutory language
- Remove redundant or obsolete language
- Enhance clarity through plain language
- Align with the new FAR framework
- Preserve essential governmentwide acquisition standards

This project is referred to as the Revolutionary FAR Overhaul (RFO) initiative. This initiative will make the FAR more concise, understandable, and focused on core procurement requirements.

3. **Summary of Changes.** FAR part 11, Describing Agency Needs, has been updated to ensure requirements are clear, focused on commercial standards, and do not unnecessarily limit competition. Statutory requirements retained in the RFO FAR part 11 model deviation include, but are not limited to, the following:

- 41 U.S.C. § 3306(a) and 10 U.S.C. § 3206(a): Planning and Solicitation Requirements
- 41 U.S.C. § 3307 and 10 U.S.C. § 3453: Preference for Commercial Products and Commercial Services
- 15 U.S.C. § 637(d)(4)(F): Requirements related to liquidated damages

4. Instructions.

- The Consumer Product Safety Commission (CPSC) acquisition workforce shall follow the RFO part 11 model deviation text instead of FAR part 11 as codified at 48 CFR chapter 1. The Council's RFO part 11 model deviation text is available at [Acquisition.gov](https://www.acquisition.gov), under the "[FAR Overhaul](#)" link, and is incorporated into this class deviation.
- Do not include any of the removed provisions or clauses in future solicitations and contracts. For open solicitations or awarded contracts, the contracting officer has discretion regarding the need to enforce or amend the provisions or clauses. Note that without some of the removed provisions or clauses, the contracting officer may be required to separately address certain aspects in the contract.
 - For example, without contract clauses addressing variations from firm-fixed price contracts, contracting officers should consider other ways to protect the Government by addressing variations during the contract's performance.
- Requirements for establishing delivery or performance schedules are being moved to the FAR Companion Guide. This move allows acquisition teams greater flexibility and discretion to consider techniques which are most appropriate to their acquisition. To enforce the remaining liquidated damages clauses, it is helpful to ensure a delivery schedule is clearly identified.

- Review templates and related standard operating procedures to align with this deviation and remove unnecessary process steps.

5. **Applicability.** This class deviation applies to all CPSC procurements.
6. **Authority.** This class deviation is issued under the authority of EO 14275, OMB Memo M-25-26, 48 CFR 1.4, and RFO FAR 1.304.
7. **Effective Date.** This class deviation is effective immediately and remains in effect until rescinded or incorporated into the FAR.
8. **Points of Contact.** Questions regarding this class deviation may be directed to the CPSC Director of Procurement Services, Eddie Ahmad, at aahmad@cpsc.gov.
